The Call Comes from Across the Sea for Rescue for the Principle of Home Rule— It is a Critical Time—Money Wanted,

From across the Atlantic comes to us again, in the name of human liberty and common justice, a call for help from a people close-ly allied to us in blood, interest, and sympathy, struggling against overwhelming odds for the right to live and peacefully enjoy the blessings God intended as the natural right of all men. The Parliamentary Fund Association, organized to meet special emergencies, and auxiliary to other organized bodies legitimately seeking to aid the cause of self-government in Ireland, recognizing the great importance of immediate and pronounced effort at this time, again respectfully asks your cooperation and sympa-

The flank movement of the Tory party in England on the Irish forces in the British Parliament, prosecuted through the instrumentality of its venal ally, the London Times, proves to be as serious in attempt and import as dis-

or justice to receive the successful adoption by the british neople.

In desperation over this condition, Tory biggerty and malice, stimulated by greed for continuance of power, in a final effort to check this flowing title of favorable public sentiment, practising political expediency, exploded the well laid, ingeniously charged, mine of calumny, which, through the medium of the Times, it is prosecuting on the purchased, perjured testimony of the "Castle school of witnesses" and informers, a means so long and successfully employed by England against the Irish people. By this unscrupulous action it is sought to involve Mr. Farnell and the duly constituted authorities of the National movement in the infamous crimes committed by desperate men. Ireland's enemies, often prompted by British gold, and inspired by the Secret Service Agents of the Castle Government.

Mr. Parnell is forced to meet this issue and defend himself. All who are familiar with the application, under Tory rule, of British law to Irishmen, know that no means will be left unemployed which will contribute to his conviction. Conviction of the chieftain means collabse of the movement, in the opinion of blind Tory statesmanship, the aim of the foul conspiracy; and while hope and effort for mans inalienable right to self-government will never cease while a drop of Irish blood flows in human veins, though agos more should intervene.

In Parnell's defence, every lover of liberty and fair play is interested, it is a great prin-

liverance.

In Farnell's defence, every lover of liberty and fair play is interested. It is a great principle at which tyranny strikes.

The plot against him is deeply and craftily laid, and only superior legal ability will uproot

likerty for liberty's sake—the brutal rule of Baltour.

The chosen representative of the people and their press cast into leathsome criminal dungeons to perish because voicing to the world the constitutional claims of their people, and advocating their rights.

The altar and the hearthstone desecrated and outraged, in violation of the constitution of the realm—the mighty military arm of a nation upon whose dominion 'tis boasted 'the sun never sets' engaged in annihilating the starved remnant of a people who prefer death to the extinguishment of the hope of freedom's light. A people whose blood courses through our veins. A people whose blood has baptized the altar of American freedom, and been shed defensively upon every field whereon the life of liberty has been imperiled.

baptized the altar of American freedom, and been shed defensively upon every field whereon the life of liberty has been importled.

This brutal injustice and inhumanity is practised upon the nearest European shores to free, liberty-loving America. Practised for centuries, the light of advancing civilization and the march of Christian charity seem but to quicken and intensity the flendish malice with which Tory principle and policy pursue this people to drive them to overt acts that will justify physical extermination. Unaided they cannot hope for rescue from the terrible fate toward which Tory craftiness is driving them, and who can calmly contemplate the result? Already we hear the voice of discouragement and distrust promoted by the secret influence of the arch enemy pursuing his methods on American soil, even among those claiming to be Irishmen.

abould do something fin this hour of perhabit great necessity.

The "Irish National League," a duly constituted authority, offers a channel we heartily commend to all friends of Ireland who would aid in her hour of need. If, however, there are those in this great land who would prefer expressing practical sympathy for Ireland outside of Irish political organization, the "Parliamentary Fund Association of America" will gladly acknowledge and transmit such expression.

Recognizing the demands our own late friendly political contest imposed upon our and all, and the many home charities requiring attention, and remembering the generous responses in the past by the American people, we reluctantly make this appeal at this time. Yet, may we not in the day of full enjoyment of every political right and blessing fittingly express sympathy for martyrs to the same principles which insure us this enjoyment? The people of freland are abundantly endowed with the spirit and talent necessary to success, needing only the means to employ these forces. This we can and must surply them. To those who in the past have so generously responded in support of Irland's cause must we particularly supeal for renewed assistance now. You who are already enrolled, and who should and would be on this roll of honor are most earnestly invited to respond to this appeal: if outside of New York, by any plan most convenient, either by clubs affiliating with us or individually on our roll, and in New York and vicinity by letter or personal attendance at the meetings of the association weekly at the Hoffman House, commencing Monday evening, Jan. 28, remitting or expressing the measure of your symmathy for Parnell and Ireland. DANCING IN KNICKERBOCKERS.

who propose hereafter to discard the regulation evening dress at receptions or balls. The leader of this club is Broker John C. Furman, who is connected with Waterbury & Co. of 132 Front street. His associates are: Messrs. Thomas Howard. Robert Hargous, James Waterbury. Worthington Whitehouse, Edward C. Potter, and Broker S. S. Sands, Jr.

They arrived on Monday night after the drawing room was well filled with guests, and sauntered in, dressed all alike in knee breeches and talliess dress coats. Their arrival made an instant sensation, and the debutante and the belies who were clustered about her studied the novel attire with admiration. The knee breeches of each of the seven swells were of rich black satin, fastened at the knee with silver buckles. Black silk stockings encased the calves, and the dancing numps were made after the fashlon of the old Knickerbocker shoe and fastened with buckles of burnished silver. The dress coats were of black velvet, cut somewhat after the style of shooting jackets, and were worn over low-cut waisteoats of black watered silk, such as is worn with the regulation dress coat of the present season. Each man wore a linen dress shirt, with plain bosom, and standing collar, encircled with a plain white tie.

Tom Howard led the cotillon with Miss Shepard as his partner, and his club associates also took part in the stately dance. There were favor figures in the cotillon, and exquisite favors were presented to the dancers.

Among the two hundred guests who admired the innovation were: Mr. and Mrs. Adolph Ladenburg, Mr. and Mrs. Cooper Hewlit, Mr. and Mrs. Wh. Monroe, Mr. and Mrs. Wh. The gross earnings of the Atchison, Topeka and Santa Fc system, 6,536 miles, for October were \$2,686,604, and not \$895,849. This is the first statement covering the entire system. It does not, however, include the returns from the Atlantic and Pacific road and that of a few branches in Kansas, which also are owned jointly with other commanies. The fixed charges of the company are figured approximately at \$10,500,000, of which all but \$1,500,000 is interest on its bonded debt. The October statement indicates not earnings of \$10,800,000 ore rannum, providing carnings are no better than during that month. That they have improved, or rather that better rates are now being obtained, no one doubts. It is reported in Beston that for the vear 1888 the commany falled to earn fixed charges by about \$2,750,000, and during that year it paid \$2,625,000 in dividends. This would make the total delicit for the year about \$5,500,000, a complete statement of the company's affairs is promised by next Saturday.

Atchison continues to hold the first place in the market in point of activity, and to-day it was the only active stock that was aggressively strong. It showed very fair rallying power. The buying evidently was chiefly to cover short contracts, as the publication by the company of the results of the operation of its leased lines for October created a more favorable impression regarding the property. It is reported that a complete statement of the company's affairs will be made within a week. If it should prove as unexpectedly favorable as the statement just referred to, fears regarding the future of the Atchison Company will be very generally allayed.

In view of the probability that the new Inter-State Commerce Association will be completed at Chicago on Thursday, the anxiety of Western operators to close their contracts for short account is natural. They are exceedingly fortunate in the absence of leaders on the built side, as it allows them to control the market within certain limits as they did to day.

by the Brooklyn Elevated Railroad, the two companies forming one system known as the "Brooklyn-Union." Of this system, the Broadway section to Williamsburgh Ferry, 2.76 miles, and the lower Myrtle avenue section, 185 miles, to the Bridge, form the portion of the Union Elevated Railroad Company already constructed and in operation. The Fifth avenue line to Greenwood Ceme-tery, 3.10 miles, and middle Myrtle avenue line, 1.52 miles, are now in course of construction. These sections, when completed, will give the Union Company a total mileage of 2.23 miles. Other valuable extensions are projected. To the Liberty-loving People of Free America:

thy in a noble work. Agreat crisis exists in the constitutional

lical in purpose. The scheme to destroy the great Irish leader

The scheme to destroy the great Irish leader and apostle of human rights. Charles Stewart Parnell, calls for prompt and potent action to insure his protection against the infamous plot to crush the cause of a gallant people by striking down its chieftain.

For ten years Mr. Parnell and the faithful men around him have waxed a contest for human rights against the organized power of the mighty empire of Great Britain, which has spared neither money nor honor in its efforts to deteat and crush them and the people and principles they so nobly represent.

Steadily has grown, however, the principle of home rule until under the leadership of Mr. Gladstone nearly one-half of the people of the british kingdom have been recorded in favor of justice to Ireland, and only a question of opportunity for expression remains to determine by ponular voice its successful adoption by the British becole.

and deleat it.

Behind the Times stands an unscrupulous Tory Government with unlimited resources, aided by the treachery of those who would defeat and remove the peaceful constitutional plans l'arnell represents, that wild and desperate vengelul means might be employed—means destructive of every hope of that recole.

means destructive of every hope of that people.

Behind Parnell stand only our faith, our hearts, and pockets. Which shall win, virtue, honor, and patriotism, or malice and treason? It is for us to determine. The character of all those who have advocated and maintained the cause of Ireland, as championed by Parnell, is involved in this attack upon him.

In addition to this special crafty Times conspiracy against a cause all true men love, there is presented in Ireland to-day a spectacle that should bring the blush of shame to the Christian civilization of this century—a spectacle essecially revolting to Americans, who love liberty for liberty's sake—the brutal rule of Ballour.

American soil, even among the dishmen.

If we would save what has been gained we must act. The hands of the constitutional forces in Ireland must be upheld. The enemy relies upon exhaustion of the people and treason. Money is needed and at once. Every person of Irish blood and sympathy in America should do something fin this hour of peril and great negasity.

Recognizing the demands our own late
